SUBJECT: Nissan Chemical Industries, Ltd.
Targa® Herbicide, EPA Reg. No. 33906-9
Notification Per PR Notice 1998-10: Minor Label Changes to Sublabel B
This Submission is Not Subject to PRIA Fees

Dear Mr. Baris:

As agent for Nissan Chemical Industries, Ltd., I am submitting a Notification under the provisions of PR Notice 1998-10 to make minor changes to Sublabel B for **Targa® Herbicide (EPA Reg. No. 33906-9)**. The purpose of these changes is to correct typographical errors. The specific changes have been highlighted on the enclosed label and are as follows:

- 1) On page 4 of Sublabel B, we are adding the advisory statement "Do not use less than 1 pt/A with a low volume application," to the statement regarding the spray adjuvant requirement.
- 2) On page 4 of Sublabel B, under the heading "Important Restrictions for Provisia™ Rice," we are deleting the reference to "hybrids" in the next to last bullet point. Both hybrids and varieties are sensitive to ???
- 3) On page 5 of Sublabel B, under the heading "Broadleaf Weed Control," we are deleting the references to the "Grasp," "Stam," and "Regiment" products.
- 4) On page 6 of Sublabel B, under the heading "Application With Broadleaf Herbicides," we are deleting the statement, "Tank mixtures of TARGA® with chlorimuron-ethyl (e.g. DuPont CLASSIC®²) or with chloransulam-methyl (e.g. First Rate) containing herbicides may fail to control certain grass species normally controlled by TARGA® used alone." These tank mixtures are not used for rice crops, so these directions would not be applicable for Sublabel B.
- 5) On page 6 of Sublabel B, we are deleting the "Cultivation" section. Cultivation is not used for rice crops, so these directions would not be applicable for Sublabel B.
- 6) On page 7 of Sublabel B, under the heading "Spray Adjuvants," we are deleting "either" and "or a nonionic surfactant" from the first statement.
- 7) On page 7 of Sublabel B, under the heading "Spray Adjuvants," we are adding the statement, "DO NOT use less than 1 pt/A crop oil concentrate with low-volume (less than 12.5 gal./A) aerial or ground application."

The following documents are being submitted to support the Notification:

- 1) Pesticide Application Form (EPA Form 8570-1);

- 2) A copy of Sublabel B for **Targa® Herbicide** with the changes highlighted; and,
- 3) A clean copy of the revised Sublabel B for **Targa® Herbicide**.

Insofar as I am the authorized "Contact Point" and "Company Agent" for Nissan Chemical Industries, Ltd., please relay all correspondence directly to me at 122 C Street NW, Suite 505, Washington DC 20001. If you have any questions, please contact me by telephone at 202-393-3903 ext. 111 or by e-mail at wmccombie@lewisharrison.com.

Thank you very much for your cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "Wendy A. McCombie", is written over a horizontal line.

Wendy A. McCombie
